

## Building Better Opportunities Essential update May 2021 - Updated Annex H

### Essential update May 2021

On 29 April 2021 we let you know that we had published a new version of Annex H: Participant entry form. We have subsequently noticed that there is an error at the end of 'Part four: your eligibility'. This incorrectly states the date that someone must have been resident in the UK before to apply for EU Settled or Pre-Settled Status as 31 January 2021. This should be **1 January 2021**.

We have produced an updated Annex H version 13 which corrects this, which is now available as part of the [Guide to Delivering European Funding](#) in both standard and black and white. Our apologies for any inconvenience caused.
