

## Building Better Opportunities Essential Update, September 2020, Update to Annex A

### Update to Annex A

Annex A: Your Payment Schedule version 10 is now available as part of the [Guide to Delivering European Funding](#). This version corrects a formula error that was switching columns in the 'quarterly breakdown' and 'project summary' between 'revised forecast' and 'actual' prematurely. In addition, there are minor changes to the 'front sheet' to bring Annex A in line with other documentation; and the SDAs and Irregularities table has had additional quarters added to the drop-down options.

Please note, that for Quarter Three 2020 submissions, you can use either Annex A version 9 or 10. However, for Quarter Four 2020 submissions you must use version 10.
