

## Building Better Opportunities Essential update September 2022 - Revised Terms and Conditions for Building Better Opportunities

### Revised Terms and Conditions for Building Better Opportunities

As you are aware, from time to time we re-visit the terms and conditions of the Building Better Opportunities programme. One of these reviews has recently been carried out to incorporate a Data Processor Agreement between the DWP and The National Lottery Community Fund, which has resulted in a new 'clause 12' being added to the Terms and Conditions. In addition, a few other minor updates were included which, for example, reflect the need for BBO to continue to follow EU procurement rules following the UK's exit from the EU, and several links were updated.

Your Funding Officer will shortly be sending out the revised Terms and Conditions directly to your legally responsible contact. They will need to confirm acceptance of the terms and conditions via email. We do not expect these changes to cause any issues, however, if you have any questions once you have received the revised Terms and Conditions, please speak to your Funding Officer.
