

# Building Better Opportunities

## Project outline

For use in England only

Project reference	Project 2 of 3 - Multiple and complex needs
LEP area	D2N2
ESF Thematic Objective	9: Promoting social inclusion and combating poverty
ESF Investment Priority	1.4: Active inclusion
Funding available	£4,634,800
Project start period	March 2016 to August 2016
Latest date for completion	December 2019
Date open for applications	Friday 5 June 2015
Deadline for stage one applications	12 noon on Monday 3 August 2015

## Important information about this project outline

This project outline represents just one strand of the overall funding that is available through Building Better Opportunities. As this is a joint programme with the European Social Fund, we will only consider applications that clearly meet a project outline and meet the requirements set out in our **programme guide**.

As you read this project outline, please note the following:

- This project outline is subject to any changes made to the ESF Operational Programme in England when it is officially adopted by the European Commission. The Fund will upload any updates to <https://www.biglotteryfund.org.uk/esf>. It is your responsibility to review the page regularly to keep abreast of any changes that may impact on your application.
- You must apply for the full amount of **funding available** shown, which we will award to just one applicant or partnership to deliver the project described in this outline.
- The project must be delivered in the **LEP area(s)** shown and within any specific **project location** we've identified within this outline.
- You must plan to **start** and **complete** your project by the dates indicated. By 'complete' we mean that you must have spent and claimed all of the grant and closed your project.
- Your proposed project must align with the **project description** we've provided within this outline and include any specific activities listed.
- You must submit your stage one application by the **deadline** we've given above.
- Your proposed project should include appropriate links to potential employers and self-employment opportunities. The specific interventions must enable a comprehensive assessment of an individual's needs that are tailored to help them move towards work and out of poverty.
- You must demonstrate that the activities you are proposing will be additional to any national and statutory provision. This could include, for example, wrap around support that works with people to overcome the barriers that prevent them engaging effectively with statutory provision, or more in-depth and intensive support to the most disadvantaged people, which they can access alongside the statutory provision they are entitled to.
- Activities must be locally accessible and be led by skilled front line staff.
- The people who will benefit from the project must come from the eligible participant groups we've identified in our programme guide, with a specific focus on those unemployed or economically inactive, furthest from the labour market, and most at risk of social exclusion. We may also specify particular **project participants** within this outline that must benefit from some or all of the activities you'll deliver.
- You must be confident that you'll be able to deliver the **project outputs and results**, taking into account the value, length and nature of the project we've described. We will monitor the delivery of the project to ensure these outputs and results will be met over its lifetime.
- You should have experience of delivering similar services and of identifying and working with people who face significant challenges to engaging with the labour market. You must demonstrate an understanding of the needs of local people, and show how you will work with existing local providers of related services and engage those most in need in the local area.
- Organisations can be involved in more than one application, either as a lead or a partner. However, lead partners might set their own requirements on partners' involvement in other applications so please check local requirements with the lead partner.
- Subject to satisfactory performance, there may be the potential to extend the project duration and/or increase the funding available for this project once activities have commenced.

If you think your organisation, or a partnership led by your organisation, would be able to deliver the project we've described then you can request a stage one application form on our website [www.biglotteryfund.org.uk/esf](https://www.biglotteryfund.org.uk/esf)

## Project background

Many individuals and families in Derbyshire, Nottinghamshire, Derby City and Nottingham City face multiple disadvantages. Ambitious coordinated action at strategic, local and individual levels is needed to ensure that everyone, irrespective of where they live or their background, is socially included and those experiencing poverty can access support to exit it. Paid employment and the pathways to it are recognised to be the primary route to achieving this.

It is acknowledged that many disadvantaged and excluded people need support to address the issues they are facing and achieve stability as a vital first step on the pathway towards employment. The level, duration and nature of this support will depend on each person's individual circumstances, but it will always need to focus on addressing the root causes of their exclusion. Other aims include supporting people to access better housing, achieve stable finances, improve their health and wellbeing, have better functioning families, reduce benefit dependency and the reduction or cessation of crime and anti-social behaviour.

This project will deliver against the priorities identified in the D2N2 Social Inclusion Framework (July 2014). This provision is to support those who are disengaged and furthest away from employment and will augment existing mainstream provision including Department for Work and Pensions and Skills Funding Agency national programmes that are targeted at people who are unemployed and engaged with the benefits system.

There are three projects being delivered in the D2N2 area through Building Better Opportunities:

- Financial inclusion;
- Multiple and complex needs;
- Towards work.

Applicants should ensure they are fully aware of the other projects we will be funding in the D2N2 area (even if they only plan to submit an application for this project).

## Project aim

This project aims to support people with multiple and complex needs to move closer to the labour market. It will focus on those who are furthest from the labour market, helping them towards employment. Employment will be one measure, but so too will be the confidence of these people to progress onto other training, education or volunteering opportunities.

By 'people experiencing multiple and complex needs', we typically mean those experiencing at least two of the following: homelessness or unstable housing; substance misuse; reoffending; mental health challenges; and also expect additional wider contributory factors or barriers.

The project should demonstrate a commitment to new ways of working which will suit the diverse needs of communities. This is particularly relevant to people with multiple and complex needs, who have typically disengaged from mainstream support.

## Project description

The project will need to:

- provide the means through which disadvantaged people become work-ready, and are able to access learning, training and job opportunities;
- engage and support disadvantaged people to enable them to overcome barriers to employment;
- be responsive to the needs of individuals and communities;
- provide consistent levels of support across urban and rural areas.

The specific activities to be delivered through this project should be determined by applicants and clearly articulated in the stage one application form, but possible activities could include:

- helping individuals to gain a greater understanding of their own abilities and learning needs and to build confidence;
- supporting joint working with existing provision, such as the troubled families teams and local transport leads;
- provision of small group support in rurally isolated areas;
- support to re-engage with and access mainstream services beyond those directly related to employability.

Applicants are encouraged to be explicit on measures to address mental health challenges; approximately 13 per cent of outputs should be to support people with mental health challenges. They should also demonstrate how their delivery offer will align with the strategic programme currently active within Nottingham City.

Consideration should be given to demonstrating how the project is aligned to the D2N2 Strategy Principles and the D2N2 Delivery Criteria for Social Inclusion (Impact and Scale; Delivery Readiness; Additionality; Local Intelligence and Capacity; Quality; Performance and Efficiency; Co-ordination of Market Engagement, and Flexibility and Responsiveness).

Applicants are encouraged to consider a wide range of innovative delivery models.

### **Project location**

The project should be delivered across the D2N2 LEP area including more rural communities. Geographical coverage of D2N2 is fundamental to the successful delivery of this project.

### **Project participants**

All participants must be unemployed or economically inactive as defined in our programme guide.

The project will have a specific focus on people within the D2N2 LEP area who are out of work, furthest from the labour market and people who are most at risk of social exclusion. It should be focused on people with multiple and complex needs.

Whilst we can support activities for young people between the ages of 15 and 18, there is a new statutory requirement for this age group to remain in education, employment or training. We can only pay for activities working with young people who are aged 16-29 and who are not in education, employment or training (NEET) and young people aged 15-18 who are NEET or at risk of becoming NEET. Young people below the age of 15 are ineligible participants. Unless the project is specifically aimed at young people, those aged 29+ remain eligible participants.

### **Project outputs and results**

The project must deliver the following outputs and results within its lifetime:

- At least 421 people are engaged in activities to improve their work readiness, including at least:
  - 211 men;
  - 210 women;
  - 210 people who are unemployed;
  - 211 people who are economically inactive;
  - 67 people who are 50 or older;
  - 86 people with disabilities;
  - 51 people from ethnic minorities.

N.B. each person can be counted against more than one category.

- At least 13 per cent of the people enrolled on the project move into education or training on leaving.

- At least 10 per cent of people move into employment, including self-employment, on leaving. Of these, 50 per cent must have been unemployed when joining the project and 50 per cent must have been economically inactive.
- At least 27 per cent of people who were economically inactive when joining the project move into job-search on leaving.
- In addition, you must ensure that anyone who needs access to childcare in order to participate in the project receives childcare support. This will be checked through a survey run by the Managing Authority.

These are the **minimum** targets we expect your project to deliver within its lifetime. Tell us if you will be able to support more people through the project, as this could have a bigger impact. Our assessment of your stage one application will take into account the different types of change that participants of the project will experience. If you are successful at stage one, we will ask you to develop a set of project outcomes that you will deliver alongside the outputs outlined above.
