

Building Better Opportunities

Project outline

For use in England only

Project title	Project 2 of 3 Supporting Adults
Project reference number	Dor/2/2
LEP area	Dorset
ESF Thematic Objective	9: Promoting social inclusion and combating poverty
ESF Investment Priority	1.4: Active inclusion
Funding available	£5,259,400
Project start period	July 2016 to November 2016
Latest date for completion	December 2019
Date open for applications	8 October 2015
Deadline for stage one applications	12 noon on 30 November 2015

Important information about this project outline

This project outline represents just one strand of the overall funding that is available through Building Better Opportunities. As this is a joint programme with the European Social Fund, we will only consider applications that clearly meet a project outline and meet the requirements set out in our **programme guide**.

As you read this project outline, please note the following:

- This project outline is subject to any changes made by the European Commission or the Managing Authority to the rules governing ESF in England. The Big Lottery Fund will upload any updates to <https://www.biglotteryfund.org.uk/esf>. It is your responsibility to review the page regularly to keep abreast of any changes that may have an impact on your application.
- You must apply for the full amount of **funding available** shown, which we will award to just one applicant or partnership to deliver the project described in this outline.
- The project must be delivered in the **LEP area(s)** shown and within any specific **project location** we've identified within this outline.
- You must plan to **start** and **complete** your project by the dates indicated. By 'complete' we mean that you must have spent and claimed all of the grant and closed your project.
- Your proposed project must align with the **project description** we've provided within this outline and include any specific activities listed.
- You must submit your stage one application by the **deadline** we've given above.
- Your proposed project should include appropriate links to potential employers and self-employment opportunities. The specific interventions must enable a comprehensive assessment of an individual's needs that are tailored to help them move towards work and out of poverty.
- You must demonstrate that the activities you are proposing will be additional to any national and statutory provision. This could include, for example, wrap around support that works with people to overcome the barriers that prevent them engaging effectively with statutory provision, or more in-depth and intensive support to the most disadvantaged people, which they can access alongside the statutory provision they are entitled to.
- Activities must be locally accessible and be led by skilled front line staff.
- The people who will benefit from the project must come from the eligible participant groups we've identified in our programme guide, with a specific focus on those unemployed or economically inactive, furthest from the labour market, and most at risk of social exclusion. We may also specify particular **project participants** within this outline that must benefit from some or all of the activities you'll deliver.
- You must be confident that you'll be able to deliver the **project outputs and results**, taking into account the value, length and nature of the project we've described. We will monitor the delivery of the project to ensure these outputs and results will be met over its lifetime.
- You should have experience of delivering similar services and of identifying and working with people who face significant challenges to engaging with the labour market. You must demonstrate an understanding of the needs of local people, and show how you will work with existing local providers of related services and engage those most in need in the local area.
- Organisations can be involved in more than one application, either as a lead or a partner. However, lead partners might set their own requirements on partners' involvement in other applications so please check local requirements with the lead partner.
- Subject to satisfactory performance, there may be the potential to extend the project duration and/or increase the funding available for this project once activities have commenced.

If you think your organisation, or a partnership led by your organisation, would be able to deliver the project we've described then you can request a stage one application form on our website www.biglotteryfund.org.uk/esf.

Project background

Although Dorset has not faced the scale of challenges reported in some other parts of the country, it does have some pockets of unemployment and economic inactivity. Its low overall levels of unemployment and poverty can mask these pockets of need.

The local European Structural and Investment Fund (ESIF) Strategy noted unemployment standing at 17,900 people and DWP benefits data for February 2013 showed there were 41,300 people of working age in Dorset claiming benefits (including Jobseekers Allowance (JSA), Incapacity Benefits/Employment and Support Allowance (ESA), Income Support and Carers allowance). This includes people who are likely to face multiple barriers to employment, including the 25,490 people who are claiming Employment Support Allowance/Incapacity Benefit. In addition, approximately 1,200 young people were not in education, employment or training in 2012.

There are over 100,000 people in Dorset living in England's worst 15 per cent Lower Super Output Areas for housing and access to services. The Index of Multiple Deprivation 2010 shows that over 23,900 residents live in the top 15 per cent most income deprived areas. This increases to 46,300 for areas of health deprivation, 77,500 for a deprived living environment and over 100,000 for deprivation in relation to housing and access to services. In March 2013 the Department for Communities and Local Government recorded 1,200 troubled families in Dorset. The mixture of rural and urban economies, varying levels of connectivity and an ageing population increase the need for support to address these pockets of need.

Dorset's low unemployment claimant rate of 1.1 per cent as at October 2014 (UK 2.2 per cent) hides those not able to claim JSA (for example ESA claimants). The total number of unemployed people in Dorset is five per cent (UK 7.3 per cent), with 20.1 per cent of the working age population being economically inactive (UK 22.6 per cent).

People living in the more rural areas of Dorset have more limited employment choices and opportunities for career progression. This is reflected in productivity rates, with the 2012 Gross value added (GVA) per head in Bournemouth / Poole at £20,537 compared to only £15,723 for the rest of Dorset (UK £21,674).

There are three projects being delivered in the Dorset area through Building Better Opportunities:

- Supporting Young People
- Supporting Adults
- Supporting Social Enterprise

Applicants should ensure they are fully aware of the other projects we will be funding in the Dorset area (even if they only plan to submit an application for this project).

Project aim

This project aims to support those people furthest from the labour market to improve their employability skills and move towards and into employment.

It will also address the social needs of disadvantaged people to allow them to become work-ready and to access learning, training and job opportunities.

Project description

The specific activities to be delivered through this project should be determined by applicants and clearly articulated in the stage one application form, but possible activities could include:

- provision of a holistic assessment of an individual's needs;
- providing integrated packages of support that are tailored to help people move towards or into sustainable employment;

- supporting participant motivation, confidence-building and resilience through a flexible mix of approaches including volunteering and work experience;
- support to address barriers such as health issues, substance misuse and rural isolation, referring participants on to mainstream provision as appropriate;
- skills, learning and training activities, to cover subjects such as literacy, numeracy and digital skills, as required by the individual and with regard to local employment opportunities;
- providing support to address poverty and social isolation through advice, information and guidance on issues such as housing, debt and other aspects of financial capability.

Applicants are encouraged to consider a wide range of innovative delivery models.

Project location

The project should be delivered across the whole of the Dorset LEP area. The project must serve all areas, including rural and coastal areas, in response to need and demand.

Project participants

All participants must be unemployed or economically inactive as defined in our programme guide.

The project will have a specific focus on people who are most at risk of social exclusion and aged 25 plus. This includes, but is not limited to:

- people who are not in contact with mainstream services and who are experiencing a range of issues at the same time, including people who live in poverty;
- people living in areas of multiple disadvantage;
- people with disabilities or health conditions (including learning difficulties, mental/physical health conditions);
- people living in rural areas;
- people who are offenders/ex-offenders.

Project outputs and results

The project must deliver the following outputs and results within its lifetime:

- At least 1360 people are engaged in activities to improve their work readiness, including at least:
 - 680 men;
 - 680 women;
 - 680 people who are unemployed;
 - 680 people who are economically inactive;
 - 214 people who are 50 or older;
 - 277 people with disabilities;
 - 56 people from ethnic minorities.

NB each person can be counted against more than one category.

- At least 17 per cent of the people enrolled on the project move into education or training on leaving.
- At least 14 per cent of people move into employment, including self-employment, on leaving. Of these, 50 per cent must have been unemployed when joining the project and 50

per cent must have been economically inactive.

- At least 27 per cent of people who were economically inactive when joining the project move into job-search on leaving.
- In addition, you must ensure that anyone who needs access to childcare in order to participate in the project receives childcare support. This will be checked through a survey run by the Managing Authority.

These are the **minimum** targets we expect your project to deliver within its lifetime. Tell us if you will be able to support more people through the project, as this could have a bigger impact. Our assessment of your stage one application will take into account the different types of change that participants of the project will experience. If you are successful at stage one, we will ask you to develop a set of project outcomes that you will deliver alongside the outputs outlined above.
